Old Commission Still Functions At Regular Meet

Court Hearing On Election Puts Off For Oct. 8

The old city commission, its desecration over due, considered city business at the regular commission meeting Wednesday night in the city hall.

Seating of the new commission is still up in the air as the vote riddle which occurred at the general election here is still to be untangled in the circuit court.

A hearing tentatively set for last Friday was postponed when attorney E. F. Allen for defendant H. O. Carlton, asked for more time. The postponement was also agreeable to the other defendant in the declaratory judgment suit, Junius Harris, City Attorney Ralph O. Johnson stated.

A hearing is now set for 11 a. m. October 8, Johnson said. Chief of Police Charles Goodlett announced that the addition on the city jail, which has been under construction this summer, will be completed this week with only a little painting and installing of glass remaining to be done.

City commissioners considered the bid price of \$2,088.50 submitted by the Innu-Mastic Laboratories, Inc. for the steam cleaning, waterproofing and painting of the outside of the city hall and the city owned jailer's residence. It was their opinion that the job can be done by utilizing city labor at a much lower cost. They decided to investigate the possibility following the completion of the jail.

After submitting a street department progress report, Junius Harris asked the commission to authorize the purchase of \$6,725 worth of materials to keep the street program going. This was granted.

The Negro Steering Committee gained commission approval on the location of property where they propose to erect a colored recreational center. The city also agreed to develop the center if the land is purchased.

City Clerk Frank Anderson was authorized to contact the state attorney to determine the status of legal work in connection with the Negro Civic League property acquisition.

Firemen Outline Program For Fire Prevention Week

Firemen organized plans this week for the local observance of national Fire Prevention week here October 2 to 8, according to Chief L. E. Will.

A parade Sunday afternoon, October 7, will launch the week program. A tentative outline lists parade participants as local police, fire department, Belle Glade High School Band, National Guard Unit, American Legion, Veterans of Foreign Wars, Boy and Girl Scout troops, civic clubs, colored school band and colored organizations. The parade, to start at 5th Street, will progress down Ave. A and Main St. to the termination point near Belle Glade Motors on Ave. E.

A demonstration is scheduled at the termination point immediately following the parade. Will said. The program will include demonstration of fire fighting techniques, rescue work, ladder raising, fire extinguishers, replacement of broken lengths in the hose, use of deluge nozzle and fire hoses, use of extinguishing agents and first aid by the Boy Scouts.

Civic clubs have been asked, Will said, to emphasize the week's theme, "Defend America from Fire." The program will continue during the period of the first annual firemen's dance at the Municipal Convention Club house on Saturday night from 10 p. m. until 2 a. m. Music will be furnished by Joe Segura and his orchestra. Tickets are now on sale with department members.

LEGION AUXILIARY TO LAUNCH MEMBER DRIVE

The American Legion Auxiliary of Everglades Post 20 will launch a membership drive Monday under the direction of Mrs. Carl Cone, unit membership chairman, and Mrs. Effie Allen, president.

Due to the increasing need for the type of work done by the auxiliary, the organization will try to increase its membership this year, Mrs. Allen said. Invitations of membership will be extended to women of the households being added to the nation's casualty roll in the Korean conflict, the services which the auxiliary is prepared to render are more necessary than before, Mrs. Allen said. "We need the help of every woman who is eligible for membership."

"With our country in danger of spreading communism and due to the thousands being added to the nation's casualty roll in the Korean conflict, the services which the auxiliary is prepared to render are more necessary than before, Mrs. Allen said. "We need the help of every woman who is eligible for membership."

Rams Polish For Vero Beach Game Scheduled Tonight

The Belle Glade Rams have been practicing blocking passing and running attacks in scrimmages this week in preparation for their game with Vero Beach tonight at Memorial Field.

"We'll have to play better ball than we've been playing in order to win tonight," Coach Doug Leavitt said. "Vero Beach has a rugged team, which will be hard to beat."

Coach Leavitt has also been polishing on Ram running attacks in practices this week.

WOMAN KILLED IN AUTO ACCIDENT NEAR 80. BAY

Mrs. Mary Funderburk, 30, of Okeechobee was so critically injured Saturday morning in a highway accident on SR No. 1 about half a mile east of Lake Harbor that she died enroute to the hospital.

Her husband, James Funderburk, 25, a ranch worker, was driving the car, a 1936 Chevrolet, lost control when his car struck the bridge and a tree. The car turned over pinning two passengers under it.

The car was treated at the Belle Glade Memorial Hospital for lacerations of the arm and an injured hip.

His father, George Funderburk, 45, was held in the hospital with back injuries. His stepmother, Mrs. Esther Funderburk, 28, was treated for minor head injuries and released.

DISTRICT DEPUTY PAYS OFFICIAL VISIT TO ELKS LODGE HERE MON.

Charles Pekelis of Ft. Pierce, District Deputy Grand Exalted Order of the Elks, made his annual official visit to the local lodge Monday afternoon and on Tuesday.

He met with lodge officers and trustees at 3 p. m. when he made an examination of records and property. In his address to the members at the regular meeting Monday night he complimented the local lodge for the condition of its records and finances.

Approximately 250 Elks from the service of Florida's South Central District attended a barbecue chicken dinner in honor of the visitor at the Elks lodge. The regular meeting. The meal was prepared by Ray Whitlock, Spence Whitlock, Solie Coe, Fontaine, J. B. Jones, Pat Brent and Harold Rubin assisted with the service.

At the regular meeting following James T. Williams, Luther Davis, Joseph B. Cress and Paul D. Syler were initiated into membership.

EX. STATION PROGRAM TO BE ON SOIL TESTING

Tom Forster, soil chemist, and Ralph Kipp, animal husbandman, will discuss "soil and Tissue Testing as Developed in Relation to Pasture Fertility" on the program conducted by the Everglades Experiment Station at 11 a. m. Saturday over WSWN.

Due to the interest in the grazing area, the discussion will feature new techniques applied effectively in the determination of soil fertility in pastures.

Co. School Board Strains For Steel Needed In School

Construction To Begin 30 Days After Steel Allocation Is Granted

"The County School Board is straining every effort to get a government allocation of steel for use in the construction of the proposed new high school building here, Howell Watkins, County Superintendent of Public Instruction, stated this week.

Construction on the modern three-wing building was originally slated to begin August 1 following approval of the plans submitted by Architect Edgar S. Wortman. Progress was halted when the school board was unable to obtain an allocation for the necessary steel.

But according to Watkins, the school board is pushing with all its might for the steel working through the National Production Administration and Federal Security Administration for the allotment. Within approximately 30 days after the allocation is received, construction will begin allowing time for the advertisement of bids, Watkins said.

Urgency for the new building was emphasized last week when City Inspector N. B. Wilcox labeled the elementary school building "dangerous" and "unfit for occupancy" under the terms of the city code.

He stated that this does not mean "the building will fall down immediately" but that "it is definitely a menace to the."

Local Port Plans Hindered By Lack Of Materials

H. M. Tschirg, engineer of the port of Palm Beach stated that as soon as he evolves a plan for work on the coastal port, he will start on a tentative plan for port and docking facilities here.

His statement on the status of local port progress was contained in a letter received by the chamber of commerce here this week.

Action for a port was started by the chamber last spring when the organization adopted it as its number one project for the year. Since progress on the plan has been stalemated this summer, directors authorized the chamber secretary to write a letter to Tschirg seeking information at a recent meeting.

"We can not proceed with standard construction due to priorities on required steel, so I have been studying various designs which would permit sound construction without the use of government restricted materials," Tschirg stated in the letter.

He said that he found it to be practically impossible to erect facilities without these materials so he has started negotiations with a steel mill in Luxembourg for at least part of the work.

In explanation of why work on the port plan has been delayed, Tschirg said that construction at the Palm Beach port was imperative this summer.

PUBLIC LIBRARY BOARD HAS MEETING MONDAY

A meeting of the Public Library Board was held on Monday evening, September 24th at the home of the chairman, Mrs. Herbert Beck.

In attendance were Mrs. Betty Harris, librarian, Mr. Hugh Lewis, Mrs. Clarence Lee and Mrs. James Ball Jr., board members.

Minutes of the previous meeting were read, followed by the treasurer's report and a report from the librarian.

Mrs. Herman Close was elected to be a member of the board, replacing the Rev. Leonard Vandewater.

Among the recent books purchased for the library are "Encyclopedia Americana," "Who's Who in America," "World Book Annual Supplement," "Information Please Almanac," and "Who Is Who in America."

President Price Presents Plaque To Trenton FFA

President I. L. Price of the Florida Council of Cooperatives left Thursday to officially present to the Trenton F. F. A. Unit a plaque from the American Institute of Cooperatives.

This award is one of twelve given annually throughout the United States to outstanding FFA organizations.

Mr. and Mrs. Doyle Timmons will also attend the meeting, he is Secretary of the Florida Council, and she as one of the leaders of the organization since its early days in Florida.

LIONS CLUB INSTALLS FOUR NEW MEMBERS

Frank Dooley installed Bob Davis, J. K. Baker, Claude Jones and Phil Hare as new members at the regular Lions Club meeting at the Legion Hall Wednesday.

President Herman Close announced that the local club has won a Lions road sign for attaining the second most points among clubs in District 35 S.

Frank O. Hubson, principal of Belle Glade High School, stated that he attended a meeting in West Palm Beach Tuesday where it was reported that the steel acquisition for the proposed new school building here looks very favorable.

It was announced that the meeting next Wednesday will be "Loud Shirt Day," and that all members must attend in appropriate apparel. Prizes will be given to the wearers of the loudest shirts, and those not dressed properly will be fined, the announcement stated.

BAND PARENTS ASSOC. TO HOLD SPECIAL MEET

The Belle Glade High School Band Parents Association will hold a special meeting Tuesday night at 8 at the school to appoint committees, according to Mrs. F. C. Schoenfeld, secretary.

Alan H. Drake, band director, will submit a list of items needed by the band, and association members will discuss the buying of new instruments.

STREET DEPT. AHEAD OF SCHEDULE ON PROJECTS

Street Commissioner Junius Harris reported this week that due to favorable weather conditions the street department has completed many of its projects ahead of schedule.

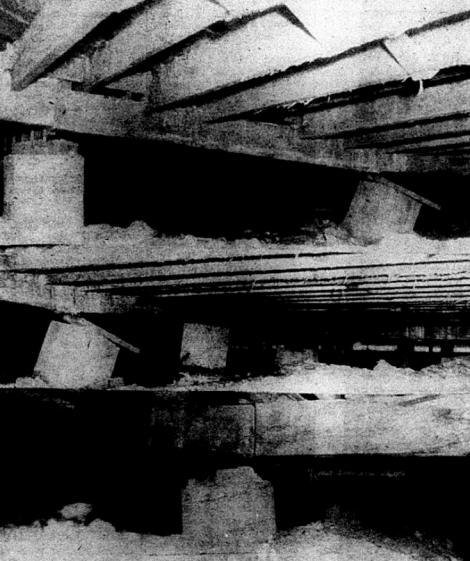

All streets in Northmoor Gardens, N. E. First St. in the Kirtland Subdivision and two blocks of N. E. Second St. near the post office have received a coat of priming oil and sand.

Harris stated, S. W. Fourth St. will be given a priming oil and sand coat next week.

Chad and gutter work on S. W. Fifth St. is progressing steadily except for delays in certain blocks due to light and telephone poles which are in the way. The Florida Power and Light Company has a crew currently working on the poles and expects to have most of them out within two weeks.

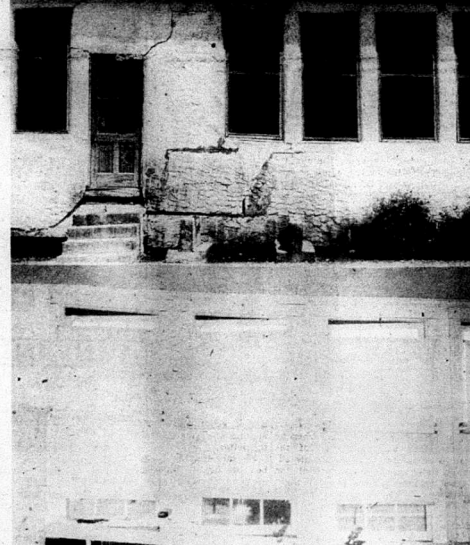

As soon as curb and gutter installations have been made and telephone cables installed, the department will resurface the street.

SCHOOL BOARD NEEDS YOUR HELP TO SECURE STEEL

Foundation failure of the local elementary school building is illustrated in these views of pilings located under the central part of the building.

The views show that one piling is toppled and that another fails to connect with the floor.

In the upper picture cracks on the exterior of the school building reveal the settling of the foundation. The lower interior view illustrates unevenness of the floor which causes the windows to sag. There is approximately 11 inches difference in floor elevation across this span of less than 20 feet.

SEVENTH DAY ADVENTISTS COLLECT NEEDED ITEMS FOR KANSAS CITY AREA

The Seventh Day Adventist Church, working in cooperation with the Red Cross and Kansas City welfare agencies, is serving as a collection center for articles needed in the stricken area, according to Mrs. Arnold Hudson, local church welfare committee head.

The church here asks persons having needed items to contribute to contact Mrs. Jack Tatum by phone 2559 Monday, Wednesday or Friday or bring them to the church.

Articles listed are blankets, sheets, pillows, pillow slips, comforters, hand and bath towels, dish towels, clothing for children between five and 15 years and clothing for infants between one and four years.

Mr. and Mrs. E. Spooner, Pahokee, reported for collection Wednesday, according to Mrs. Max Glenn, clerk of the local draft board.

William I. McCleathery, who was also ordered for induction, requested transfer to Plant City, his present place of residence. He will report with the Plant City induction call in October, Mrs. Glenn said.

A colored delinquent, Columbus Woman, a trained nurse, registered of the Tampa board also reported Wednesday for examination and induction if accepted.

Registrants ordered to report for the September physical examination call were: Joe Scarlich, Chosen, J. B. Scurlish, born and Dan Purvis and Henry Lee Thomas, colored (born between 1925-1929).

The induction call on October 22 will include two registrants. The physical examination call scheduled for October 21 will include all registrants born between 1925 and 1930 who have not been previously called or deferred.

Visitor Declares Glades Kenaf 60% Above Other Crops

Philippine And Cuban Fiber Crops Show Slower Growth

Mr. Juan Ledesma, who operates one of the largest individual farms in the Philippines visited the plantation of the American Kenaf Fiber Corporation with Mr. A. L. Gutierrez, its president, this week and complimented Mr. Gutierrez on having "the finest crop of kenaf I have seen either in the Philippines or in Cuba."

"Other crops, he continued, I have studied are no more than 60% as matured seventy days from planting, as this Glades crop—I congratulate you."

Mr. Ledesma also was enthused over the rice crop being grown at Hillsboro Plantation by Johnson and Turner, "the Texas Rice Boys."

Mr. Gutierrez, on a bi-weekly visit to the plantation said, "We are more than pleased with the condition of the crop, its healthy appearance and its growth."

"Being the only commercial crop of kenaf for fiber in continental U. S. and being produced for the Munitions Board thru the Commodity Credit Corporation it is focusing considerable attention on the muck lands of Florida."

"Our oldest kenaf at seventy days from day of planting has an average of 2700 pounds of fiber per acre, according to carefully selected samples. We are growing about 100 to 120 days. This record justifies our enthusiasm for our efforts in the Glades."

The organization which Mr. Gutierrez heads is systematically making samples according to a carefully designed routine each five days and is compiling a record of height, to tal tonnage of green stems per acre as well as percentage of fiber contained in the plants.

Some very interesting information was obtained by Mr. Connell of the organization.

The first twenty days when the root system is getting a start finds about a 12 to 15 inch growth, followed by a two inch growth per day for the next ten to fifteen days. A general average of better than 30 inches in height on the seventeenth day after planting, with an average of 2700 pounds of fiber per acre is a record hard to beat, according to all information available.

Being a tropical plant, the rains of the summer, together with the warm weather, seem to make this fiber plant a natural for the summer months in the Glades.

With a total U. S. consumption of a billion pounds of jute annually, there seems to be a market for kenaf fiber, which

CHIEF OF POLICE IN SOUTH BAY

During my previous five years as Chief (1942-48) the South Bay Police Department was put on a paying basis. Garbage collections were established out of police fine and forfeiture funds; an intercommunication radio was installed in the first police car purchased for the town. In addition a nice balance was added to the general town funds.

Announcing the purchase of additional 2500-acre tract at Hillsboro brings the total land controlled by the Gutermans organization to some 6,000 acres in one tract.

It is expected that the coming year will find a greatly expanded planing in the Glades, and a substantial boost to a new Glades industry—the production of vegetable fibers.

GLADES CAP OFFICERS

ATTEND GROUP 5 MEET

Lt. Perry Duke, adjutant, and Lt. Gil Galbaldon, operation officer, of the Glades Civil Air Patrol Flight attended a meeting of officers of Group Five CAP at Lantana Airport Sunday.

Maj. Walter Phillips, Orlando, newly appointed director of operations and training for the Florida wing, stressed the need for a central listing of emergency equipment, aircraft and pilots. He also emphasized the need for mobile support units.

The recently activated Glades Flight is under Group Five with headquarters at the local airport. Capt. W. E. Golden, commanding officer, is asking for enlistments of flying or non-flying personnel.

life and limb of children, who must go to school there."

Illustrating his statement that the building is defective due to foundation failure, Williams submitted pictures which are carried in this paper this week.

Plans are to use the present high school facilities for the elementary school when the new building is completed. When this takes place part of the present elementary plant will be condemned, according to Mrs. Ruth Wedgeworth Timmons, Glades member of the school board.

Plans of the proposed high school building show that the plant will be modern in every respect designed on the functional plan to offer the best in lighting, ventilation and acoustical effects.

displayed a welcome banner for legionnaires who will be passing through the city going to the national convention in Miami. The commission agreed to purchase three banners for display in the city.

A report on the public library showed that 429 books have been added this year and that circulation has increased by 1,206 periodsicals and books. The commission instructed the mayor to write a letter to Mrs. James Ball and Mrs. Betty Harris, librarian, complimenting them on the library progress and the work they are doing.

A social security program for city employees was outlined and commissioners referred the question to the employees who will vote on the issue.

In a report, the city planning Board recommended that something be done about the hazardous railroad under pass on West Lake Road. Commissioners approved the drawing of a resolution to the Central and Southern Flood Control District asking that concrete retaining walls be built on each side of the Hillsboro Canal making possible the installation of a scale under the railroad.

On request of the County Resources Development Board that a director from this city be appointed, Luther Jones, reappointment was affirmed. The commission moved to

NEGRO NEWS

New Bethel Baptist Church

Sunday School was opened at the usual hour with Supt. Sandy Kendall in charge. The summary of the lesson was given by pastor Porter. Remarks by Mr. John Burris of Miami, Florida, a representative of the Loving Charity Lodge.

Morning worship was opened with a spiritual devotional service conducted by Dea. Sandy Kendall, followed with an inspirational song service by the Senior Choir. Brief announcements were made by the Herald reporter. The scripture was read by the pastor, and he delivered the message.

At 6:00 p. m. the BYPU met with the president in charge. At 7:00 p. m. worship was opened with service conducted by Sis. Brown and Sis. Montana Reid.

We are very proud to have a lot of our members back again with us after being absent during the summer months. We are looking forward to the Southland Singers of Miami, Fla. who are presenting a program at the Lake Shore Elementary School Auditorium Oct. 15, 1951. The tickets are sold by various members of this church.

St. Johns First Baptist Church

Mrs. Edella M. Conner, Reporter
Rev. J. B. Adams, Pastor
The Front Line Sunday School opened at 9:30 A. M. with Supt. Pouncey in charge.

At 11 a. m. morning worship was conducted by Dea. W. C. Taylor. Prayer was offered by Dea. H. Rogers. Scripture lesson was read by Rev. A. Austin.

At 7:00 P. M. evening worship began, with Dea. A. Z. Morgan in charge. Congregational singing was followed by the announcement for the week. Again Rev. A. Austin delivered the message.

The H. M. Society met at the home of Sis. Gertrude Burney. The Board meets each Monday night. District president A. Houston and president R. Thompson are back after attending the National Baptist Convention in Cincinnati, Ohio. They reported a wonderful session. Auxiliaries in the above name church invite you to their weekly meetings.

Lake Shore Elementary School

In a special meeting of the executive committee on Monday morning, two committees and chairmen were appointed. Program: Mrs. W. C. Taylor, chairman; Financial: Mr. J. M. Waldron, chairman; members: Messrs. W. C. Taylor, E. M. Taylor, Mrs. Rosa Calhoun, Eva P. Oliver, Miss Catherine Palms.

The PTA is progressing nicely with its membership increasing every day. By the last of October, we are hoping to have over a hundred active PTA members who will be willing and ready to share in the responsibilities of the school.

We have several projects in mind: the purchase of a deep freeze for the purchasing in the clinic room; and the purchasing of audio-visual equipment.

Fifth Grade News
On Tuesday afternoon, members of Grade 5-B organized their class as a club. After observing many names, Smart Set Class Club was chosen by a majority of votes.

David Hargrove acted as chairman until the president was elected. Officers who were elected are: president, David Hargrove; vice-president, Annie Mae Felton; recording and corresponding secretary, Betty Jean Flowers; assistant recording and corresponding secretary, Joyce Johnson; Chairman, Thelma Colbert; reporter, Emma Jean Hicks.

We have as our motto: "To make our good better and our better best."
We have three Safety Patrol members in our class: Joyce Johnson, Betty Jean Flowers and Emma Jean Hicks. They are carrying out our duties because they love our school and want it to be a good one.

All of us made booklets out of construction paper last week and put any design on the covers that we wanted. The booklets, "My Own Word Books," are used to put all of our misspelled words in that we miss in our spelling lessons.

Norman Tinsley was sick last week. We are happy to have him back in school.
Our custodian, Mr. Mims, and his helper, Sam Miller, are really keeping our campus beautiful. Our grass is pretty and green. We are going to help them keep it pretty by staying off the grass.

We divided the class into two teams and played football last Friday morning during our physical education period. The boys' team members were: O'Neal, Pearson, Chestnut, Small, Walter Watson, Eric Davis, Sermons, Allen and Hargrove who was captain. Girls' team members were: Thomas, Jackson, Felton, Smith, Colbert, Johnson and Flowers.

The boys won the game 14-0.

Everglades Vocational High

The first pep meeting of the school year was held Monday

during the regular chapel exercises, supervised by the physical education staff, which comprises Mrs. Olivia Bailey, J. W. Perry, and Mr. Alphonso Hearst. Everyone felt the good school spirit as the cheerleaders led the student body into some lively, rhythmic yells. Coach Perry demonstrated a few football plays in order that the students would more clearly understand some of the technicalities of football. The football team was presented to the student body. Everyone is pulling for the Bobcats, as we wish this to be one of our most successful football seasons.

The NHA held a meeting Tuesday afternoon at 1:00, the main purpose of which was to elect officers for the school year. After hearing speeches by candidates running for various offices, members elected the following persons: Pearl Jordan, president; Mary Johnson, secretary; Naomi Murphree, Asst. Secretary; Mary Thompson, Treasurer; Delphia Johnson, Historian; Gennie M. Wells, Song Leader; Bernice Barber, Sergeant-at-Arms; Althea Rhodes, Parliamentarian. The club mother for the year is Mrs. Taylor.

The American Junior Red Cross Chapter of E. V. H. was organized Wednesday, Sep. 19. The following persons were elected: Janis Chastine, President; Quin Harrell, Vice-president; Earlene King, Secretary; Delphia Johnson, Asst. Secretary; Helen Allen, Treasurer; and Francis Savall, Reporter. Plans have been made for a better Red Cross organization, and each member has pledged his full cooperation.

Pahokee Elementary School

Operating officially for the first time under our new name, the East Lake School in Pahokee will end its first month of operation next Monday for the 1951-52 school term. Despite several unexpected last minute emergencies the program seems to be progressing smoothly and satisfactorily. This is no doubt due to the fact that the pre-school conference period to be one of the most effective planning sessions ever experienced at this center. Two newcomers are bringing a fresh point-of-view into our faculty thinking. Miss Edna Earle Gavin, recent graduate of Florida A & M College in Tallahassee, has replaced Miss Carrie Clark at the second grade level. Miss Clark has accepted an assignment in the intermediate grades by choice.

We sincerely regret losing Mrs. Claudine Pearson, our primary co-ordinator, who was

granted a temporary leave due to illness; we wish for her an extended rest and complete recovery in order that she may return safely at the end of her period of leave.

Meanwhile, her responsibilities will be assumed and capably carried forward by Miss Mildred Reid of Riviera Beach. We are looking forward to an interesting and profitable experience working cooperatively with these new members of our school family.

FACULTY MEMBER GRADUATES DURING SUMMER: The Principal and faculty extend hearty congratulations to Mrs. Mercedes M. Robinson, third grade teacher, who received her Bachelor of Science degree in Elementary Education from Bethune Cookman at their summer convocation on August 11th. Mrs. Robinson has been one of our most cooperative faculty members for the past six years. She is extremely popular with teachers and students. Not only did the graduates among the top ten honor students in her class, but she was appointed class poet and took part in various other commencement activities as well.

Of her poem, Mrs. Mary McLeod Bethune, founder and president-emerita of the famous institution of learning, spoke in glowing terms and requested an autographed copy. (Continued on Page 7)

STATE MAY SURVEY FOR EAST COAST TURNPIKE

The Florida Improvement Commission has asked the State Road Department to survey the "feasibility" of constructing an East Coast toll turnpike linking Jacksonville and Miami.

Chairman Alfred McKethan of the State Road Department, who is vice chairman of the Improvement Commission, said the survey could be made by

the Road Department Traffic Planning Division at no cost to the Improvement Commission.

McKethan estimated the cost at \$100,000,000 or \$300,000,000. The turnpike would pass immediate coastal points between Jacksonville and Miami, but would have entrances and exits at all main points. Former Mayor Harold Turk of Miami Beach, a commission member, said he believed the Commission would "proceed with dispatch."

Governor Warren urged studied deliberation in moving forward with a project of such "incalculable magnitude."

Public Health Workers Veterinarians Cooperate In Campaign On Disease

Veterinarians and public health workers are cooperating in a campaign on infectious quinine encephalomyelitis which has appeared in several Florida counties, the State Board of Health said today.

The disease is a public health problem, says state health officer Wilson T. Sowder, because the disease can be transmitted from sick horses to human beings.

An approved immunization treatment is "highly effective" in preventing the disease, Dr. Sowder added.

Positive and suspected cases of the disease have been noted in Citrus, Pinellas, Broward and Sarasota counties, says Dr. J. E. Scatterday, State Board of Health veterinarian. Vaccination apparently is proving effective as a control measure in Pinellas County. Pinellas County Veterinarian H. W. Bolser notified the State Board of Health that following the discovery of three positive and two suspected cases, approximately 300 horses were treated with the vaccine during the month of June. No further cases have been reported in that area, Bolser added.

Certain types of mosquitoes may transmit the disease from animal to animal and to human beings, says Dr. L. L. Parks, director of the State Board of Health's Bureau of Preventable Diseases. He advised spraying and other mosquito methods.

Doctors and veterinarians are asked to keep a close watch for the disease and report any suspected cases to county health departments, because of its infectious nature.

We are privileged to be in the reflected glory of our co-worker's honor and success. Incidentally, we can almost envy her the opportunity she will have to relax and really "vacate" come next summer!

School Site Improvement. We are grateful to the county maintenance department for having granted some of our requisitions during the summer months. Returning students and teachers found a brand new lighting system installed throughout the primary building, new small size lockers in the new annex.

Our playground equipment has also been delivered and is awaiting the completion of the ground fill and leveling job for installation. Our principal comes in for a bit of praise also for the manner in which he kept our buildings and grounds. We think he deserves the power mower we procured for him last year; we know he appreciates it by the way he uses it!

to be placed in the archives of Principal Returns To Classroom. Our principal, Mr. Stanleigh Murrell, has returned to his duties after a hurried trip to his home in Washington, D. C. to attend his mother who is ill there. While away, Mr. Murrell also visited his former home in New York City where he reported a pleasant though all-too-brief stay with relatives, friends, and acquaintances of long standing. Asked about the general conditions observed in that section of the country our principal dryly remarks "Things are tuff all over."

PTA Welcomes Faculty At Opening Meet

The East Lake Parent Teacher Association met in their first get-together on Monday evening last. It was an exceptionally fine meeting with an unusually large attendance. New members of the faculty were introduced, new patrons of the school spoke briefly, policies were clarified and a restated for the incoming year, and annual reports were made to the group.

Mrs. Daisy M. Murrell, District President, gave short and encouraging remarks and introduced Professor Anne A. Thomas, Principal of Harlem

Academy in Clewiston, who also spoke briefly. Because of the fact that this PTA was organized late during the last school term, the roster of officers remains unchanged with Mrs. Pauline Stokes and Miss Carrie Clark as president and secretary respectively. There were 27 new members present.

Following the business session, the PTA entertained the entire faculty and guests with a fried chicken supper complete with fresh home-made peach ice cream.

Everyone present reported a most pleasant evening. Our goal for 1951-52 is 200 members. We are counting on you for support.

First Assembly Program A Success

Members of the third grade, Mrs. Robinson teacher-organizer, presented the first program assembly of the year last Friday afternoon. With deft skill the youngsters presented an interesting and well planned program around the central theme of "Good Health." A novel feature of the presentation was the radio broadcast technique employed. These assemblies are an integral feature of our curriculum.

You and your friends are invited to enjoy them with us whenever you can. The sixth grade will present the next program on Columbus Day at 1:30 P. M.

The third graders have given them a high mark at which to shoot! Station ELS at Pahokee, signing off 'til next time! Are you listening?

NORTON SCHOOL OF ART TO BEGIN MONDAY

Classes at the Norton School of Art will begin on Monday, October 1, with a full schedule of classes. It was announced by Willis F. Woods, director.

Eric Lundgren and James Mathewson will return to the school, offering classes in painting and drawing. Mr. Lundgren will teach still life and landscape painting in oil in the afternoon. Mr. Wilson will instruct life drawing and painting classes both morning and evening.

The special course in children's painting which has been so successful in past years will also begin on Monday. Mr. Lundgren will present the classes, which are divided into 3 age groups each meeting 1 afternoon a week. Children between the ages of 6 and 14 may enroll in this course.

In December Jose de Creff, noted sculptor, will be at the school to begin his classes in sculpture and ceramics which will continue through April.

Carrying on its policy of presenting a nationally known guest instructor in water color painting each season, the school has announced that Mitch Jamieson will offer instruction in water color and related techniques for 10 weeks starting January 7.

The school maintains an art supply store for the convenience of students enrolled in its classes.

A new illustrated catalogue listing class schedules and tuition rates may be obtained at the school office or will be mailed to interested persons upon request.

Negroes Ask Admission To State Universities

A delegation of Florida Negroes recently asked the State Board of Control to eliminate racial segregation at the University of Florida, Florida State University and Florida Agricultural and Mechanical College.

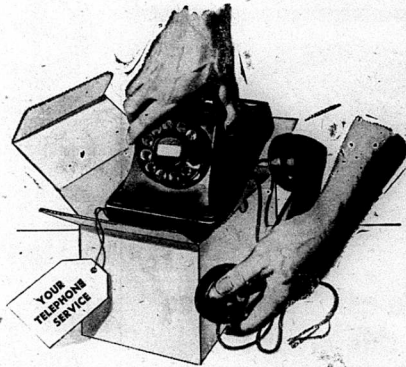

The board of control said it did not have the authority. It advised the delegation a de-

cision of the U. S. Supreme Court or an amendment to the state constitution would be necessary. Several months ago the State Supreme Court said if equal facilities are provided at Negro institutions, the White schools would not be required to admit Negroes.

Frank M. Harris, St. Petersburg lawyer who is chairman of the Board of Control, thanked the delegation for coming before the board.

Digger, Better Package of Service

...yet up in price far less than most things you buy!

A DOZEN EGGS is still a dozen, and a pound is still a pound. But the "package" of telephone service you buy grows larger and larger.

TODAY IN FLORIDA, you can call more than 2½ times as many local telephones as you could ten years ago. And the service is better. Yet with all this extra value, Florida telephone rates in the overall have gone up less than a fourth as much as prices in general.

ALWAYS ONE of your biggest bargains, telephone service is today an even better buy than it was ten years ago... and a smaller part of your family budget.—Southern Bell Telephone and Telegraph Company.

So Big in Service... So Little in Cost

Easy does it!

YOU'RE going to be surprised about lots of things the first time you and this Buick get out on the road.

Take the easy way it responds to your every wish—steps away from a stop light—soars up a hill—lets loose a surge of power at the touch of your toe on the treadle—or gentles to a stop at the touch of the brakes.

Take the way it rides the road—with an easy, sure-footed on turns, level as a... on straightaways.

Take the way it steers—so light and true that it seems to guide itself.

Take its ease of control. More than a million owners now know the wondrous freedom from tension and strain that goes with Dynaflow Drive.*

It's easy to see where this eager beauty gets its standout performance, when you glance at the list of all-star engineering features shown above.

But how about price? Can you afford it?

"Easy does it" is the answer to that one too.

Fact is—if you can afford a new car, you can afford a Buick. Better come in to see us soon.
